

REPUBLICAN TICKET.

For Delegate to Congress.

T. B. CATRON,
of Santa Fe.

Be in the swim this year by voting the republican ticket.

It is now almost certain that San Miguel county will give Catron a good majority at the November election.

There never has been a time when republicans had so much and such good campaign material as they are supplied with this year.

Captain ROBERT ANDERSON, one of the most noted sportsmen in the country, died at Columbus, N. C., yesterday morning; age of 102.

DEMOCRACY'S cause is so desperate in Iowa that even dead men are being pressed into campaign service. Horace Botes is on the stump.

The democrats will find that they are wasting their time discussing the subject of republican tactics in this county. It is republican principles that will hurt them.

Is the republican name a ticket composed of competent and popular men, it is doubtful if the democrats name a ticket. They are now trying to get up a fusion ticket, but are meeting with poor success.

It is said that the democrats are in a quandary as to what to do for re-election to congress. We know many people who would have been satisfied with the dinner, and would not have cared to run for any office on top of it.

The next delegate to congress, Hon. Thomas Benton Catron, can bank on receiving at least 800 majority in Bernalillo county. Sheep men are tired of these starving times, brought about by false promises and pledges of the democratic party.

Let every voter see that he is registered. Then let him take his choice between the democratic hell we are living in and the republican heaven that is so near. Voter, you owe a duty to yourself, your family and your country. Perform it.

"650 vs. 181," a difference 469. Advertisers, look to your interest. These figures represent the city circulation of the two daily papers. Our books will show that 650 bona fide subscribers in the city of Albuquerque read THE CITIZEN every afternoon.

Governor McKINLEY's tour in the west is one of the most remarkable of such tours, not only because of the number of speeches he makes, but the enormous audiences which greet him everywhere, testifying to his great popularity with the American people.

THE SAN MARCIAL Bee says: "The Albuquerque CITIZEN has entered upon its sixth volume. Like good wine, it improves with age. Of late, however, its improvement has been so marked that the wine will have to take a few sea voyages to catch up."

DAVID B. HILL consents to run for governor of New York. The people of that state will fall in the duty they owe to the whole country, as well as to themselves, if they do not turn down this pestilent and dangerous demagogue by giving Morton a tremendous majority.

A STARCH of wheat bought twenty pounds of sugar under the McKinley protection bill. Under the Wilson free trade bill a bushel of wheat will buy only two pounds of sugar. What will the farmer do when we have abolished free trade that is promised us by the democratic party?

No sort of political demagoguery will convince the average voter this year that he isn't suffering all the pangs of hard times. And that the hard times set in as soon as Cleveland and a democratic congress were elected and they have been getting worse ever since. No amount of figures or lying will divert the voter from facts this year.

"GENERAL" KELLEY, who has started out to organize another industrial army, will find a plentiful lack of recruits if there is any wisdom to be extracted from experience. A march from San Francisco to Washington at this season of the year means a certainty of hardship which ought to be avoided even by persons whose chief purpose in life is to gain a livelihood without work.

THE states and territories that hold elections on the 6th of November are: Arizona, California, Colorado, Florida, Idaho, Indiana, Kansas, Maryland, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New York, New Mexico, North Dakota, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, West Virginia, Washington, Wisconsin and Wyoming.

ABOUT 10,000 clock makers in New York have struck against a reduction of wages. The Wilson bill lowered the tariff on clocks 10 per cent. The excuse for this was that people must have cheaper clothing. One of the effects of the cut in a tariff on clocks is that 10,000 laborers must accept lower wages or quit work. They will probably remain on the strike till they are starved into work at the reduced wages and they will then go back, and accept the democratic boon of cheaper goods and lower wages.

NEW MEXICO POLITICS.
There is something strange about the way the democrats of New Mexico seem to have made the republicans believe that the former have the better part of the argument in so far as the statehood question affects the approaching election. The democrats claim that there would be a better chance of securing votes in the senate for the statehood bill by electing their ticket than by electing the republican ticket, and it seems that a good many republicans argue the whole question upon the presumption that this premise is true.

The contrary is true. One thing which has retarded the admission of New Mexico is the belief on the part of eastern republicans that it would be a democratic state. It is to be regretted that it is so, for no member of congress should let a consideration of this sort influence his vote on a proposition to admit a new state. But in practical politics considerations of this kind do play a part, and it is well, therefore, to determine whether it is republican or democratic votes that should especially be sought.

Already the democratic house of representatives has voted in favor of admitting New Mexico, and Mr. Cleveland is reported to have said that the territory should be let in. This may be considered as a commitment of the democratic party to the policy of admission. In the face of this record the democratic senators will hardly refuse to vote for the bill, whatever the result of the approaching election may be. It may be taken for granted that the bill is safe as far as a majority of the democratic votes in the senate is concerned.

But the action of the republican senators is doubtful as yet. It is to be presumed that some of the democratic senators will vote against the measure on account of eastern prejudice, or through fear of increasing the strength of the silver forces in the senate. Admission may, therefore, depend upon what the republican senators do, and for this reason it is desirable to show them that New Mexico would not be a danger to the state. It follows that the weight of argument on the statehood question is in favor of electing the republican candidates. This is so clear that it is surprising the republicans have not turned the tables on their democratic opponents in the discussion of this proposition.—Denver Republican.

NO MATTER how things go, the poor always suffer. The nabobs who own railroads think nothing of running down a poor man's horse. The man who can afford to own a horse, runs down the poor fellow on a bicycle. The fellow on a bicycle runs down the poor chap who has to walk. The man that walks stumbles against the poor cripple who goes on crutches. The cripple spends most of his time jamming his stick on other people's corns. It's a pretty selfish world—indeed it is.

UNDER an act of congress, passed July 31, 1894, the territorial officers will in the future receive their salaries from the government monthly instead of quarterly, and the amounts will be paid at Santa Fe instead of from Washington. Territorial Secretary Miller has been appointed a special disbursing officer for the executive department. Funds will be sent him in advance for disbursement and he is required under the law to make quarterly reports to the treasury department.

This reason that hard times commenced right after the election of two years ago, was not on account of the laws then in force, but because the democratic party was successful on promises of repealing the laws under which we had prospered, and demoralize all business interests. The American people don't wait for a whole building to fall on them. They make a narrow escape in saving what they could.

CAPT. COLLIER, of the Raton Range, says: "The most absurd promise that Joseph has as yet formulated to catch votes is that he will have a soldiers' home located at Santa Fe to compensate that city for its loss of the military post. And yet it is only a few weeks since he promised the capital city that the post would not be abandoned. Verily, the ways of the prevaricator are difficult."

UNQUESTIONABLY the most stupendous false pretense connected with the monetary policy of the present administration is the absurd claim that we have more than \$600,000,000 of gold in circulation in this country. Nobody can produce any facts or figures to account for the presence of half that amount of gold in the United States, and as a matter of fact it is not in this country.

THAT eloquent wind bag, Bourke Cockran, of New York, has announced that he will not be a candidate for re-election to congress this year. He knows less about public affairs and can tell it with greater noise and oratorical effect than any other prominent member of any political party, and the business of law making will lose nothing by his retirement to private life.

The American Federation of Labor has rejected that plank of the labor platform which calls for the equal ownership of all the instruments of production and distribution, not regarding it as sensible.

THE labor organizations propose to have something to say regarding the composition of the republican ticket in this county, and will be represented in force at the primaries this evening.

SOLDIER NEWS.

Fort Wingate, N. M., Oct. 11.—H. company, Tenth infantry, departed for Ft. Reno, Oklahoma, on the 5th inst. This followed by A. and D. troops of Second cavalry causes our fort to present rather a melancholy and dreary appearance, but their vacancies will soon be filled by E. and K. troops from Ft. Huachuca, giving to each set of troops a change, without which a soldier's life would sometimes become monotonous.

As Mr. Arnold, post printer, was taking an evening stroll last Sunday evening he suddenly encountered all that remained of "old Zuni," wrapped in the

peaceful sleep of death. Zuni is perhaps the oldest Indian in this locality, his age not being accurately known, but at least it was far beyond an octogenarian.

Sergeant Matson is mourning the loss of a beautiful \$30 water spaniel, which he had purchased at the territorial fair. He is in the hands of Mr. Winston, our taxidermist, who will transform him for Sergeant as a souvenir of the fair.

DELEGATE CHOSEN.

Republicans held enthusiastic primaries last night.

Republican primaries for the purpose of selecting delegates to the county convention which convenes in this city on Thursday morning, October 18, were held in the various precincts of the county last night.

Precinct No. 12, Albuquerque, the following delegates were chosen: R. W. Hopkins, Don J. Rankin, William Farr, Chas. F. Hunt, Ollie Carter, M. Mauro, Chas. Yonof, J. R. Armijo and Louis Hild. The meeting in this precinct was quite a lively one, and discussions took place between Hon. Mariano S. Otero, Chas. F. Hunt and Lawyer B. S. Rody, the latter desiring to choose independent republican delegates, but he could not muster together more than twenty-five votes and hence was defeated.

Down in Pajarito, precinct No. 11, Hon. F. A. Hubbell, Saturnino Borboa and Felipe Hubbell were chosen delegates.

Across the river at Rancho de Atrisco, precinct No. 9, Jose de la Luz Sanchez and Porfirio Armijo were the successful delegates chosen.

Over in old town, precinct 13, a lively time was had, resulting in the selection of the following delegates: Jesus Romero, W. A. Rankin, Cornelio Murphy, Manuel Springer and Jose Ignacio Garcia.

Precinct No. 26, Albuquerque, the following delegates were chosen: E. B. Harsh, H. R. Whiting, L. W. Roberts, P. T. Isherwood, George W. Fisher, R. B. Myers, F. L. Griggs, Sam White and David Denham.

Colonel Chas. F. Hunt received a dispatch this morning from J. J. Keegan, of Gallup, stating that the two precincts of Gallup will send delegates to the convention favorable to the Perea faction.

The two Gallup precincts held rousing primaries, Gregory Page being elected to represent precinct No. 27 as a delegate. Precinct No. 30 will be represented by Gus Mulholland, G. Hicks Knausel and Fred Meyers.

From all reports obtained the primaries were conducted orderly and the greatest harmony and unity existed.

DISTRICT COURT.

Otto Berger was tried to his latter loss.—The Court's Decision.

The case of Amalie Berger vs. Otto Berger, an absolute divorce being granted the other day, was up before Judge Collier this morning on the question as to the custody of the son, a bright little fellow about ten years old, and the complainant, Mrs. Berger, had witnesses present—two lady teachers of the public schools and others—to prove that the father of the boy, Otto Berger, was cruel to his son and whipped him often with a big horse whip. The judge heard the evidence, after which he sent for the boy, and he stated in open court that he hoped to bring the boy before him without any one having an opportunity to speak to the little fellow. The boy, when questioned by the judge, stated that his father met him in the court house yard and told him to tell the judge that he wanted to live with his father. The boy was then asked if his father was cruel to him, whereupon the little fellow said that his father would whip him with a horse whip. The judge then decided to place the child in the custody of the mother, giving the right to the father to visit his son whenever he desired. The judge requires that the child be kept within the jurisdiction of the court.

Mrs. Berger called at THE CITIZEN office this afternoon, and stated that her husband used dreadful language toward her in the court room this morning, talking to her in the German dialect.

FROM SAN MIGUEL COUNTY.

Business improving at Las Vegas—other interesting items.

Las Vegas, N. M., Oct. 14.—Notwithstanding the dull times, Las Vegas continues to improve. Your place is usually ahead of all others in the territory for building, but at present Las Vegas leads the territory for large and good buildings. The new Masonic Temple, which when complete will cost about \$30,000, is going ahead nicely, the foundation being pushed rapidly. It will be three stories high and basement. The third floor is reserved for the use of the order erecting it, the second floor has been taken on a long time lease by the Montezuma club, while the first floor, which is for store purposes, has not been taken that we know of, but there is little doubt that it will rent readily.

The directors of the Normal school have selected a very good site for that school, in the northern part of town, and will commence work the last of the month on the foundation. The building is to cost \$30,000.

At the experimental station a fine large barn has been put up, reservoirs and other improvements are being made, and everything looks like business. Quite a number of new houses, and improvements to those already built, show that owners of property here have any amount of faith, and some cash, or they would not go on improving as they are now doing.

Politics still keeps a good many of our citizens busy. Indications in favor of Mr. Catron carrying this county improve all the time. It looks as if our friend, Felix, would have hard work "wagging the dog" this time, as it seems that the anti-Joseph men in his party (the Union) are in the majority, and openly say that they will put Catron at the head of their ticket. This is generally doubted by outsiders, but if it should be done it will be very rough on the said-to-be leader of the party. One thing is certain; that party is making a strictly anti-American campaign out in the country, and the leaders give it out that there are to be no Americans on the ticket; but if any should by any means get there, "scratch 'em." It is likely that this order, when generally known, will do them more harm than good. The conventions all meet in about ten days, which will leave only two weeks for the county campaign. The county is being worked up now by speakers from here in the interest of both candidates, and also of our friend, Col. Mills, whom we had almost forgotten. A party of republicans, headed by our ex-candidate for delegate, M. A. Otero, returned yesterday from a trip to some of the southern precincts, and are greatly gratified with the outlook. We think San Miguel county will redeem itself this fall, and don't you forget it. AROX.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough.
